

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. From the

U. S. Government.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "Ad int. res." implies ad interim copyright registration under the law of Mar. 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.
